Three barber shops.

Three drug stores.

Three restaurants.

Three shoemakers.

Three blacksmiths.

Two wagon factories.

One barrel factory.

Two chair factories.

Eleven lawyers.

Eight physicians.

One private school.

Three tin shops.

Two dentists.

One saddler and harness-maker.

A Tailor.

One K. SCIU'SKO STAR.

Kosciusko is the leading

town on the C. A. & N. branch of the Illinois Central railroad. Population about 2000 and constantly growing.

615 educable children.

The assessed valuation of Kosciusko's realty and personalty is \$612,007.

During the season 1891-92 Kosciusko handled 22,728 bales of cotton.

Only one Kosciusko merchant has failed in about 8 years.

We draw trade from a large territory composed of Attala and parts of Madison, Leake, Neshoba, Choctaw, Winston and Montgomery counties. The country from which the trade of the town is drawn is good average land with good water courses. We never have anything like a total failure of crops.

Six handsome new brick stores have been built in the city in less than twelve months.

Our residences compare favorably with those of any place.

Our school advantages are of the first order. Besides private schools, we have a public school of the highest grade. It has 240 pupils and employs three male and four lady teachers.

Kosciusko offers every advantage for the settlement of individuals or the location of business enterprises, factories and the like. All are welcome.

An agent of a New York Bible society reports that in canvassing Erie county he found one hundred and fifty-five families who had never seen a Bible.
